

News

Season of maritime conferences has begun. As well as project group meetings which are reported in progress report for this month the deadline for abstracts for four most important events are approaching fast.

Several abstracts have been produced for Bridge, IMLA, IMEC and IAMU conferences and partners are invited to produce more and become involved in development of the full papers.

All on-going projects will be given an opportunity to present their findings at the Bridge conference which will take place on 9-10 June 2011.

For Group Meetings refer to the Progress Report for April 2011.
